Centrifugal Hog

There is a new piece of equipment for Daisy to use today. It's the **Centrifuge** and you can use it to diagnose illnesses that a standard examination can't detect. You'll learn more about how to use it on patients later on.

And if you have any records lying around that play at 5,000 revolutions per minute, you can use it to listen to those too.

Pet Specific Illness:

Pig Malaise: Pigs tend to be introspective creatures and prone to bouts of existential malaise. The most prominent symptom of this malady is decreased appetite. Healthy Pigs are famous for their great and indiscriminate appetites, but Pigs experiencing Malaise barely eat a bite. The medicine cabinet is well stocked to deal with such symptoms.
